GHOSE
LANE
FAREWELL

A photograph of a classroom scene. A male teacher in a white shirt is standing on the left, pointing his right hand towards a chalkboard. The chalkboard is filled with mathematical equations. The most prominent equation is $(x^2 + 5x + 6)(x^3 - 6x^2 + 11x - 6)$. Below it, the expression $(x^2 + 5x + 6)$ is written again. To the right of this, the expression $(x^3 - 6x^2 + 11x - 6)$ is written. Further to the right, the expression $(x^2 + 5x + 6)$ is written once more. The chalkboard is dark and the text is written in white chalk. The teacher is looking at the board. In the bottom right corner, the back of a student's head and shoulders are visible, wearing a red shirt.
$$(x^2 + 5x + 6)(x^3 - 6x^2 + 11x - 6)$$
$$(x^2 + 5x + 6)$$
$$(x^3 - 6x^2 + 11x - 6)$$
$$(x^2 + 5x + 6)$$

Briefly describe Baudhanath stupa?
The Baudhanath Stupa, there is a sense of
stillness. It has a white dome, small shops are
around. It is a haven of quietness in the busy street.
