### Remedial Learning Engagement

Advanced learners were assigned to tutor slow learners by taking up various modes to teaching. Student teachers came up with different approaches to teach slow learners viz. using ICT, interactive group discussions, personalized counselling etc. Innovative methods such as integrating into extra-curricular activities, dance and drama etc. helped the slow learners to quickly grasp the content. Monthly test conducted to assess both slow learner and advance learners. Many students are well versed in ICT teach their peer about the same. Student teachers developed qualities such as leadership, working in teams etc. They also understood the methods and approaches that can be used for student centric teaching-learning.

Teachers take remedial classes to the students who get less marks in the class test.
